How to get mystery box prizes and rewards from Arbitech.

Q https://www.okx.cab/id/join/arbitech

First Step

Firstly, for all members if you want to get a Mystery box bonus worth up to \$50 and a 7-day active CISA subscription you must use our link. Then just open your web browser, then go to search, then fill in the search with our link "www.okx.cab/id/join/arbitech" and press enter.

Note : if you do not use our link then you will not get the bonuses available

Step Two

Enter your email which is the same as your Arbitech account.

Better your email code We've sent a code to Next Didn't receive anything? <u>Resend code (51)</u>

Third Step

Go to your email, and find the email code from OKX, after that copy the code and paste the email code from OKX here.

Select country or region of residence

Ensure your residency matches the one of your ID or proof of address

Step Nine

Click "Log in" below

Tenth Step

Please enter the Email that you created earlier in step two.

How to Verify OKX account.

First Step

To perform KYC/account verification please click "Verify Now" and will be directed to a new view.

Verify your identity

To comply with local laws and regulations, and to help prevent identity theft and fraud, you need to complete identity verification to continue using our services.

We need some info including:

- · ID and selfie verification
- Residential address

Step Two

Then please click "**Verify Now**" below, then you will go to the next stage.

Step three

At this stage, please select the ld Type you want, which can be "Driver's License, National ID Card, Passport, Identity Card".

Step Four

If the display on your mobile screen looks like this, congratulations you have completed the KYC stage. And you can proceed to the next stage.

Step Five

If you successfully do KYC / Verification on an okx account then in your bio in the "**Indentity Verification**" section it says "**verified**" it's mean successful verification.

How to connect OKX API key to ARBITECH

First Step

To get the API please follow this step. click top left on the OKX application display.

Step Two

Next you go to the top left menu section with the dot logo, then scroll down to this menu. Notice in the tools menu there are several options, then select the API menu

API key

We offer powerful APIs for you to integrate into your applications. They are divided into three categories: account, trading, and market trends. You can grant permissions for external services to view account balances and market trends, to trade and to withdraw funds.

Read V5 API guide >

Step Three

Click "CREATE API KEY"

Step Four

Please enter the API name according to your choice (free), and for passpharse is also free according to your choice, phasspharse here is a kind of password. So make sure you remember everything.

Then for your IP Address just leave it blank. Next for the bottom there are permissions, you can activate everything. And click Confirm

Step Five

To continue creating an API Key you must verify to prove you really want to create an api, please verify your cellphone number and email that is connected to OKX.

Step Six

After all stages are completed, and the display on your screen looks like this. Congratulations you have completed this stage. Than continue for the next stage.

Step Seven

If you successfully create an API Key and to connect the API Key Click "More" on the bottom right in the application.

Step Eight

After entering this view, the next step please see in the settings view, then select "**Connect OKX Account**", then you will be taken to the next step.

Tenth Step

Enter the same API key as in the sixth step, namely Email Okx you fill in with the okx email that you registered earlier, Access Key you fill in with the API key, Secret Key you fill in with the secret key, and finally pharse Equalize with the pharse that you created in okx earlier, don't forget to press "Enable OKX".

Note: arbitech email and okx email must be the same and cannot be different. if it is different you cannot connect the Okx API in Arbitech.

Step Eleven

After you fill in all the required data, a display will appear like the screenshoot beside, then you click **"I Already Read**"
